Message From The Chair's Office

Breast Cancer Awareness Fall Blood Drives

October is *Breast Cancer Awareness Month*-- Columbia University's fall 2016 Blood Drive Campaign is dedicated to increasing awareness of this disease and providing support to cancer patients as well as others in need of donated blood.

According to the American Cancer Society, more than 1.6 million new cases of cancer are expected to be diagnosed in the U.S. this year, and 246,600 of them will be invasive breast cancer. As an educational leader – and an integral part of the fabric of New York City – **Columbia** has consistently been at the forefront in helping to touch the lives of cancer patients, accident victims, newborn babies, surgery patients, and others in need. This fall, we are pleased to welcome our colleagues at **Columbia Doctors 51st Street** and **Columbia Doctors Fort Lee, NJ** as we expand our campaign in this fight. Your donation may give someone another day to spend with their loved ones, or even a second chance at life.

Join the [Office of the President](#), [Office of Government and Community Affairs](#), and the University's partner, the [New York Blood Center](#), in raising awareness of breast cancer and supporting the cause of blood donation. Each presenting donor during the month of October will receive a pink sling bag (*while supplies last*).

[Click here](#) to register to donate at one of the drives across our campuses. **Walk-ins are also welcomed!**
